

Marketing Email/Newsletter for TopUpFinance

Dear [name],

whether it is for a new car, piece of furniture, or simply balancing the books, money can be difficult to talk about. It doesn't have to be, though!

Here at TopUpFinance, our goal is to get money into your pocket in the shortest time possible. From starting the application process to receiving your money, the whole application and decision can be finished in mere minutes. Not only do we aim to keep decision times low, but we prioritise the security of our users to ensure they feel safe from the moment they enter their name on our application form. It's also worth noting that, with what is an effective, streamlined application process, you won't have to worry about anything other than entering your details correctly and deciding how best to use the money you receive.

We also understand the stress and worry that comes with repayment days, so we ensured that there are multiple repayment options that should smooth the entire process.

We look forward to welcoming you to our financial family and working together to create the best experience for you.

Yours sincerely,

The TopUpFinance Team
